LEARN TODAY
LEAD TOMORROW

GeoKrishi Leadership Program is an intensive 3-months program where agriculture students and aspirants are engaged in a series of learning, sharing and experimenting activities to expand their horizon of Agriculture Extension, nurture their entrepreneurial growth, and empower local farmers by promoting new agricultural tools and technology.

The participants will be engaged in a number of on-farm interaction with farmers, share and collect information and be groomed for their entrepreneurial journey ahead.

MOTIVATION

- In-depth practical knowledge on agriculture, industry bottlenecks, and, potential of ICT
- Mentorship for successful enterprise development through capacity building
- Customized Access to GeoKrishi Support System and Resources
- Become job-ready for extension roles: Field exposure with potential for in-demand role or even as a passive income generation.
- Earn a certificate that helps you stand out: You can share your GeoKrishi leadership experience
